

APPLICATION INSTRUCTIONS

WASTEWATER TREATMENT OPERATOR

Central Weber Sewer Improvement District (CWSID) is seeking a qualified applicant for the position of Wastewater Treatment Operator. A complete application will include the following components:

1. Job Requirements Review with signature
2. CWSID Employment Application or Resume

Applications will be accepted until the position is filled.

EMPLOYMENT INFORMATION

CWSID seeks to maintain a safe, challenging, steady, and positive work environment. This position is a full-time, rotating-shift position, which will include working nights and weekends. CWSID is an at will employer that has been in existence since 1956. Benefits are competitive and include: health insurance, retirement, vacation, sick leave, and on the job and offsite job training. Our compensation is competitive and for this position can range from \$22.60 to \$33.48 per hour based on experience, certification level, and qualifications. Training and education will be provided to aid in employee certification and development of necessary job skills.

Primary responsibility will be related to the operation of a wastewater treatment system as well as specific duties related to wastewater treatment processes including chlorine handling. Wastewater treatment certification, backhoe operation, Class A CDL, and basic maintenance skills are preferred. High School Diploma or GED required. A Class A CDL may be required. The successful candidate must be able to pass a physical examination, background check and drug screening prior to employment.

Complete job descriptions and applications can be obtained from the District Office. **Contact Paige at 801-731-3011** with questions.

JOB REQUIREMENTS REVIEW

WASTEWATER TREATMENT OPERATOR

The Wastewater Treatment Operator position is a rotating shift operator position. The position is responsible to operate the plant with limited supervision. The operator works with a team of rotating shift operators to operate on a shared rotating shift that includes days, nights, weekends, and holidays.

Operation tasks include but are not limited to the following:

- Monitors the plant SCADA system, gauges, meters and controls.
- Operates process equipment, electrical controls, valves and pumps.
- Records readings and produces reports for next shift and maintenance staff.
- Performs duties in collections, preliminary treatment, primary sedimentation, trickling filter, activated sludge, sludge processing, and chlorinating operations. Recognizes changes in normal operations environment, determines causes and resolves.
- Participates in chlorine offloading.
- Cleans assigned areas and maintains cleanliness in these areas. Performs occasional area and building maintenance such as snow removal.
- Assists maintenance personnel during maintenance activities.

The above statements are intended to describe the general nature and level of work being performed by persons assigned to this job. They are not intended to be an exhaustive list of all duties, responsibilities and skills required. In order to fulfill these duties, the following are minimum requirements:

- Able to perform moderate physical activity. Occasional requirement for lifting 50 pounds.
- Able to work safely with potential exposure to the following conditions: confined spaces, high-voltage equipment, dust, heat, cold, dampness, disagreeable odors, noise, heights, unknown levels of pathogenic bacteria and other environmental aspects which may be considered unfavorable or disagreeable. Potential exists for exposure to hazardous chemicals and gases including chlorine. Employees are to follow prescribed safety and hygienic procedures.
- Graduation from high school.
- Must possess a valid Utah driver's license.
- Must be able to work with chlorine gas, including the ability to wear a respirator and level A protective gear.
- The successful candidate must be able to pass a physical examination, background check and drug screening prior to employment.
- Class A CDL, may be required.

The following items are not required but are preferred:

- Certified wastewater treatment operator in the State of Utah.
- Experience maintaining wastewater equipment such as rebuilding pumps, repairing flow meters, etc.

I have read and understand the information above:
